PROFILE

Frontend developer and Computer Science student at FAST-NUCES with hands-on experience building responsive, interactive web applications using HTML, CSS, and JavaScript. Skilled in translating design concepts into clean, user-friendly interfaces, with additional exposure to Python-based AI integrations. Passionate about writing maintainable code and delivering engaging digital experiences.

EXPERIENCE

Frontend Developer Intern — Apexcify Technologys

Mar 2026 – Apr 2026

- Built and maintained responsive web pages for client-facing projects using HTML, CSS, and JavaScript, ensuring cross-device compatibility.
- Developed the company's official website as an internship capstone — a fully responsive site featuring glassmorphism UI, smooth animations, and sections for home, about, services, projects, and contact.
- Collaborated with the team to implement interactive UI features and maintain a consistent, polished user experience across deliverables.

PROJECTS

AI-Powered Trip Planner Agent | Python, Flask, HTML, CSS, JavaScript, OpenAI API

- Designed and built a goal-based AI agent that generates personalised, optimised day-by-day travel itineraries based on destination, budget, duration, and interests.
- Integrated OpenAI API with engineered prompts to convert structured itinerary data into human-readable travel guides, delivered through a clean web interface.

Study Sync – Academic Collaboration Platform | HTML, CSS, JavaScript, PHP, SQL

- Full-stack academic management platform enabling students, instructors, TAs, and admins to collaborate on projects, share resources, and track progress.
- Implemented role-based access control, task assignment with milestone tracking, a peer resource library with instructor approval workflows, and a real-time notification system.

Product Listing Website | HTML, CSS, JavaScript

- Responsive e-commerce-style product listing site with dynamic product rendering, filtering, search functionality, and an interactive shopping cart.

Coffee Shop Website | HTML, CSS, JavaScript

- Responsive multi-section website (Home, Menu, Gallery, Contact) with a cart system, interactive hover effects, and a brand-consistent colour palette.

Inventory Management System | C++

- Console-based system using OOP principles with Admin and Cashier roles, product management, billing, and file-based persistent storage.

Mini ATM Machine | x86 Assembly (Irvine32)

- Simulated ATM with login, balance inquiry, deposit, and withdrawal — demonstrating low-level programming with procedures, arrays, and conditional branching.

SKILLS

Frontend: HTML, CSS, JavaScript — responsive design, UI animations, glassmorphism

Languages: C/C++, Python, PHP, x86 Assembly

AI / Data Science: OpenAI API, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, OR-Tools

Design & Tooling: UI/UX, Canva, Git/GitHub, VS Code, PyCharm, Jupyter, Vercel

EDUCATION

B.S. Computer Science — FAST-NUCES, Karachi *2024 – Present*

Intermediate – Science — Aga Khan Higher Secondary School *2022 – 2024*

Matriculation – Science — Sultan Mohammad Shah School *2020 – 2022*

CERTIFICATIONS

- Speed Programming — ACM NUCES (C, Problem Solving, Time Management)
- Competitive Programming — ACM NUCES (Data Structures, C++, Problem Solving)
- Graphic Designing — LMS Digi Skills (Typography, Colour Theory, Layout, Branding)

VOLUNTEERING

Social Service Worker — Ismaili Volunteers

- Contributed to community projects and camping initiatives focused on environmental sustainability, humanitarian support, and social awareness campaigns.

Guest Relations — Developer's Day, ACM NUCES

- Welcomed and assisted guests and speakers at a flagship tech event, ensuring a smooth and professional experience for all attendees.
